## Who am I

I am a person who likes to work on himself, gain experience and constantly learn. I am curious and I like to try things on my own. I am mostly interested in front-end technologies but I also like backend stuff. Programming is my passion. My strengths are fast learning and purposefulness. My weakness is stubbornness. I am kind of an optimist and something between an extrovert and an introvert.

## Education

2017–2020: **ESF MU Brno** – Master's full-time study

field: **Economics**. Graduation: January 2020, degree: Ing.

**MUNI** Masarykova univerzita  
**ECON** Ekonomicko-správní fakulta

## Experience

### Front-end developer at YunexTraffic s.r.o. (2022/05 – present)

- Job duties:**
- Development of internal React component library used by other teams.
  - Development of web apps with React. Spreading best FE practices throughout teams.
  - Technologies: React, Typescript, Redux, Storybook, MUI, Jest

### Front-end developer at Brandmaster s.r.o. (2021/07 – 2022/04)

- Job duties:**
- Development of internal web applications and custom web apps for customers.
  - Technologies: JS, CSS/SCSS, HTML, PUG, GIT, Angular, Gulp

### Software tester at TwinSoft s.r.o (2017/11 – 2021/07)

- Job duties:**
- Manual and automated testing of a web application. Working with SQL database.
  - Communication with clients. Cooperation during development – UX/UI, problem-solving.
  - Presentation of the software to the clients. Writing methodological help for clients.

### Other working experiences

- **UX/UI developer at Visitpro.eu (part-time) (2021/03 – 2022/12)**  
Coding UI elements, UX consultation, and overall styling of application; SCSS, GIT, Blazor, Next.JS.
- **Front-end developer at Awincado.cz (part-time) (2023/04 – 2023/08)**  
Development of UI, enhancing UX, general front end development; Remix, Tailwind, Docker.

## Hard skills

- React / Typescript
- CSS/SCSS, Tailwind, Bootstrap
- SQL – basic queries
- Front-end libs and tools
- English – C1/B2

## Soft skills

- **Team worker** – more heads know more
- **Effective communication** – speaking is silver...
- **Independence** – I solve problems by myself first
- **Fast-learner** – I can learn quickly
- **Creativity** – that is "playing intelligence"

## More about me

Since I have always been interested in web development, I started to study this subject after my master's degree. At that time, I was still employed as a SW tester. After finishing courses for web dev (can be seen on my web portfolio), I found a part-time job as UX/UI developer in local company. A few months later, I found a full-time job as a front-end developer. And then I knew that I did not want to do anything else.
